ABOUT THE PROGRAM

CEPT Professional Programs (CPP) has developed this unique professional development program for architects. It will include visits, immersive study, and interaction with leading architects, designers and visionary patrons in Bengaluru.

The program is designed to introduce participants to the incredible design ecosystem that exists in the city and allow them first-hand access to widely recognized projects and the people behind them.

The program will include:

- Walking tours and visits to significant recent projects in Bengaluru
- Meeting and discussing with leading practitioners and their collaborators
- Interactive session with Bijoy Ramachandran, anchor of this program, and a few invited Bengaluru architects.

PROGRAM SCHEDULE

DAY – 1

Arrive and check-in to hotel on prior day

We head out on the first day to the iconic IIMB main campus and visit the institution's new campus with Sanjay Mohe from Mindspace, the architects. As part of these visits we will have access to the main academic buildings and the resource people will make presentations on the history of this important institution and its architectural & landscape heritage. We will also visit A Threshold's widely published and awarded project, Subterranean Ruins. This young practice won the Architectural Review's Emerging Prize this year. G. Reghu, the celebrated sculptor lives close by and we will drop in to see his studio and work.

PROGRAM SCHEDULE

DAY-3

Since the year 2000, Bengaluru has been home to the headquarters of some of the largest Indian & multi-national companies. Apart from these large campuses, large scale housing has also been a big part of the architectural output in the city. As part of the third day, we visit two ambitious corporate campuses, one for WIPRO and the other for Goldman Sachs. We will also visit one of the celebrated local developer, Total Environment's, projects where we can see both finished portions and on-going construction. We spend the afternoon with Naresh Narasimhan of VA, visiting a couple of their public projects and BLR Design Centre, a new repository of design thinking they have opened in the city.

About CPP

CEPT Professional Programs (CPP) aims to bridge the gap between academics, practice, policy-making, and implementation through short certificate programs. The mission of CPP is to support individual and organizational learning by creating opportunities to acquire new skills and capabilities, thus allowing professionals to stay relevant in the current knowledge-based global context. It achieves this by offering professional development, continuing education, and upskilling opportunities for professionals and in-service persons across disciplines concerned with urban development and the built habitat.

CPP draws from the expertise and capacity of the accomplished faculty at CEPT University, which is enhanced further by experts and practitioners from the field. Its programs are built on deep research, vast consultancy projects, and innovative pedagogies. CPP offers a repertoire of short programs and topic-focused programs across disciplines of architecture, design, planning, and management with immersive learning approaches combining interactive lectures, case studies, and peer-to-peer exchanges.
